

BIG HORN ARMORY MODEL 89

Proudly built in the USA, the Big Horn Armory Model 89 lever-action rifle in .500 S&W Magnum continues the rich legacy of American firearms design and development. Built from the ground-up and solidly engineered using the latest CNC technology, the Model 89 embodies the best of the old Model 86 and Model 92 lever-actions in a modern platform capable of handling the powerful .500 S&W Magnum. Both rifle and carbine models are manufactured with 17-4 stainless steel precision machined and properly hardened to deliver consistent downrange performance and rugged in-the-field dependability. The selected American black walnut stock and forend are fitted with integral front and stud rear sling swivel mounts. The pistol-grip buttstock has a one-inch recoil-taming pad. Stock and forend are given several coats of a durable synthetic satin finish. The standard rifle and carbine are equipped with aperture rear and post front sights. The Model 89's large, hunter-friendly curved-lever enables ease of operation, especially with gloved hands. Honoring the long tradition of great American sporting rifles, the new Model 89 .500 S&W Magnum provides hunters with pride in ownership, and a powerful advantage afield.
