

# Big Horn Armory Makes a Big Bang at the 2022 Industry Day at the Range

*Happy range day shooter working the action on our Model 89 Spike Driver!*

Big Horn Armory made a big impact at this year's [Industry Day at the Range](#). Held on Jan. 17, 2022, during the first in-person [SHOT Show®](#) since the pandemic's start, many attendees were anxious to see familiar faces and get their hands on products and send lead downrange. This one-day annual event is held at the [Boulder Rifle and Pistol Club](#) just 30 minutes from downtown Las Vegas and gives media members and buyers a chance to join exhibitors from the shooting and hunting industry to test out new products and get actual hands-on experience.

Our representatives at the Industry Day at the Range event were happy to give buyers and the media a chance to shoot the impressive [AR500](#), the most powerful short-range, semi-auto based on an AR .308 platform, and our exciting new tactical lever gun, the Model 89 Black Thunder!

Designated the Model 89BT, is optimally sized, perfectly configured, and is ideal for hunting, home

*We have lift off! Kidding aside, many of the Range Day shooters were pleasantly surprised just how manageable and comfortable it was to shoot the 500 S&W Magnum out of our lever action rifles.*

defense, or survival situations. The Model 89BT will be available by mid-2022.

We were busy all day with a steady stream of shooters eager to try out these powerful 500 Magnum rifles. They did not walk away disappointed.

*There was a lot of interest in the AR500. It's the only 500 Magnum AR available. Range Day shooters were impressed with having 500 Magnum ballistics in a familiar, soft shooting AR platform.*

*True Pearce from GunsAmerica.com checking out the new Model 89 Black Thunder. He and his crew loved this rifle!*
