

Revitalize Your Lever-Action Rifle with Big Horn Armory's Tune-Up Program

At [Big Horn Armory](#), we understand the unique charm and legacy of lever-action rifles. These classic firearms have been cherished for generations, offering a distinct shooting experience that has stood the test of time. We also know that like any other mechanical device, these rifles require care and maintenance to stay in prime condition. That's why we're thrilled to introduce our Lever-Action Rifle Tune-Up Program, designed specifically to keep your Big Horn Armory lever gun performing at its best.

Why Choose Our Tune-Up Program?

Lever-action rifles are known for their intricate design and precise craftsmanship. Disassembling and reassembling them requires a deep understanding of their internal workings and a skilled touch. Our Tune-Up Program was born out of the recognition that not every lever gun owner possesses the necessary expertise or time to undertake a full-scale maintenance project. We have crafted this program to service our customers with the following features in mind:

1. **Factory-New Condition:** Our program is designed to restore the internal components of your lever-action rifle to a factory-new condition. Over time, these parts may accumulate dirt, wear, or minor damage, affecting the rifle's performance. With our expert touch, we will clean and, if necessary, replace these components to ensure your firearm operates smoothly and safely.
2. **Affordable and Transparent Pricing:** For just \$400, you can breathe new life into your beloved Big Horn Armory lever-action rifle. This fee covers both the cleaning and the replacement of any internals that may be worn or damaged. We believe that quality maintenance should be accessible to all lever gun enthusiasts.
3. **Customer-Centric Service:** We understand that lever-action rifles hold a special place in the hearts of their owners. That's why our Tune-Up Program is tailored to meet your specific needs. The frequency of tune-ups should be based on your usage, ensuring that you get the maintenance your firearm deserves without unnecessary expenses.
4. **Quick Turnaround:** We appreciate that your lever-action rifle may be an integral part of your shooting experience. Our team at Big Horn Armory is committed to providing a swift turnaround for your tune-up. Typically, it takes about a week from the moment we receive your firearm until we return it to you in its refreshed and pristine condition.

Your Big Horn Armory lever-action rifle deserves the best care, and our Tune-Up Program ensures that it gets just that. Whether you're a seasoned shooter or a newcomer to the world of lever guns, regular maintenance is essential to ensure that your firearm remains reliable and safe to use.

If you're ready to give your Big Horn Armory lever-action rifle the treatment it deserves, look no further than our Tune-Up Program. Experience the joy of shooting with a firearm that performs as flawlessly as the day you first acquired it. Trust us with your cherished rifle, and we'll return it to you in a condition that will make you fall in love with it all over again.

For more information or to schedule your rifle's tune-up, reach out to us today at general@bighornarmory.com or call us at (307) 586-3700. At Big Horn Armory, we're passionate about preserving the legacy of our lever-action rifles, one tune-up at a time.
